Graphic Arts

Course #230.4

This course will present the use of inks, coatings and cleanup materials used in today's computer-oriented graphic arts industry. Classroom discussion will focus on printing methods, process descriptions, facility inspection procedures and inspector safety. Volatile Organic Compound (VOC) content, graphic arts rule interpretations and basic VOC emission calculations are discussed, as well.

February 9th and 10th, 2005

8:30 AM - 2:00 PM

Bay Area Air Pollution Control District

939 Ellis Street

San Francisco, CA 94109-5052

(415) 771-6000
